

# Registration Data Request Service (RDERS)

RGIG-möte den 21 februari 2024

- ICANN Board beslutade den 27 februari 2023 bl.a. följande.
  - Resolved (2023.02.27.01), the ICANN Board directs the Interim President and CEO, or her designee(s), to develop and launch the WHOIS Disclosure System (System) as requested by the GNSO Council within 11 months from the date of this resolution.
  - Resolved (2023.02.27.02), the ICANN Board directs the Interim President and CEO, or her designee(s), to operate the System for up to two years from the date of launch, and collect and report on usage data.
- ICANN lanserade RDRS den 28 November 2023
  - This service connects requestors seeking nonpublic registration data with the relevant ICANN-accredited registrars for gTLD domain names who are participating in the service.
  - Nonpublic data can include information such as a contact name, home or email address, and phone number related to a domain under a gTLD.
  - This service is a proof of concept that will help inform the ICANN Board's consideration of the consensus policy recommendations related to a System for Standardized Access/Disclosure. It is expected to run for up to two years.

## Who will use the Registration Data Request Service?

The service is intended for use by individuals and entities with a legitimate interest for access to nonpublic gTLD registration data. These include but are not limited to:

Welcome to ICANN's **Registration Data Request Service (RDRS)**.

This service connects requestors seeking nonpublic registration data with the relevant ICANN-accredited registrars for gTLD domain names who are participating in the service.

Nonpublic data can include information such as a contact name, home or email address, and phone number related to a domain under a gTLD.

This service is a proof of concept that will help inform the ICANN Board's consideration of the consensus policy recommendations related to a System for Standardized Access/Disclosure. It is expected to run for up to two years.

For more resources on how to use RDRS (including user guides, FAQs), visit the [RDRS page on ICANN.org](#). If you're looking for non-personal registration data, which is publicly available, use ICANN's lookup tool available at <https://lookup.icann.org>.
